

## [MISINFORMASI] AWAN HITAM MENYEDOT AIR LAUT

### Keterangan

SUMBER : MEDIA SOSIAL

NARASI : “Astagfirullah

Apakah ini tanda tanda akhir zaman semakin dekatt  
waallahualam

Kejadian langka AWAN HITAM MENYEDOT AIR LAUT dalam beberapa menit yang membuat heboh warga..”

PENJELASAN: ini adalah fenomena alam “Waterspout” › “Fair weather waterspouts usually form along the dark flat base of a line of developing cumulus clouds. This type of waterspout is generally not associated with thunderstorms. While tornadic waterspouts develop downward in a thunderstorm, a fair weather waterspout develops on the surface of the water and works its way upward. By the time the funnel is visible, a fair weather waterspout is near maturity. Fair weather waterspouts form in light wind conditions so they normally move very little.”
