Analisis Misbar

Investigasi Misbar menemukan bahwa klaim tersebut menyesatkan. Tidak ada bukti yang mendukung informasi terkait bahaya masker wajah.

Masker disterilkan setelah pembuatannya dengan cara yang ketat yang memastikan bahwa kuman, virus, atau organisme apa pun yang dapat mempengaruhi kesehatan manusia tidak tetap ada.

Saad Al-Sharif, profesor dan konsultan penyakit dada dan pengobatan tidur, sebelumnya membantah klaim terkait cacing hitam di masker wajah.

Issue

Health Canada is advising Canadians not to use face masks that contain graphene because there is a potential that they could inhale graphene particles, which may pose health risks.

Graphene is a novel nanomaterial (materials made of tiny particles) reported to have antiviral and antibacterial properties. Health Canada conducted a preliminary scientific assessment after being made aware that masks containing graphene have been sold with COVID-19 claims and used by adults and children in schools and daycares. Health Canada believes they may also have been distributed for use in health care settings.

Health Canada's preliminary assessment of available research identified that inhaled graphene particles had some potential to cause early lung toxicity in animals. However, the potential for people to inhale graphene particles from face masks and the related health risks are not yet known, and may vary based on mask design. The health risk to people of any age is not clear. Variables, such as the amount and duration of exposure, and the type and characteristics of the graphene material used, all affect the potential to inhale particles and the associated health risks. Health Canada has requested data from mask manufacturers to assess the potential health risks related to their masks that contain graphene.

Until the Department completes a thorough scientific assessment and has established the safety and effectiveness of graphene-containing face masks, it is taking the precautionary approach of removing them from the market while continuing to gather and assess information. Health Canada has directed all known distributors, importers and manufacturers to stop selling and to recall the affected products. Additionally, Health Canada has written to provinces and territories advising them to stop distribution and use of masks containing graphene. The Department will continue to take appropriate action to stop the import and sale of graphene face masks.

The [Centers for Disease Control dan Pencegahan \(CDC\)](#) dan [Organisasi Kesehatan Dunia](#) masih merekomendasikan mengenakan masker. CDC juga merekomendasikan penggunaan masker karena pentingnya masker dalam mencegah penularan.

Emerging story

On March 17, Bloomberg published a story titled. Gap [Has Billion-Dollar Ambitions for Yeezy Deal With Kanye West. The](#) publisher estimated that following a sneaker and apparel business deal with Adidas AG and Gap Inc., Kanye West's Yeezy brand is now valued between \$3.2 billion to \$4.7 billion by UBS Group AG. With this, the new Gap partnership's value could be worth as much as \$970 million, the Swiss investment bank said.

According to the report, the partnership itself attempts the Gap group to ramp up its sales and increase its appeal with young shoppers, losing shoppers, market share, and sales.

Kanye West's Gap line is projecting to break into a possible sales figure of up to \$150 million by the end of its first year in 2022. Further projects will become a billion-dollar revenue brand in another eight years, with projected sales hitting \$1 billion by 2023.

With these figures, some media outlets like [Metro](#), [Sky News](#), and [Evening Standard](#) ran along, declaring that Kanye West was now the richest black man in the US with a net worth of \$6.6 billion.

In turn, it sent social media into a frenzy as the report was shared by many users getting thousands of retweets and likes. For example, famous American author Candace Owens' [tweet](#) praised him for becoming the richest black man in the US, got 8k retweets, 1.7k comments, and 66k likes. Kanye West is now the richest black man in the US with a net worth or \$6.6b, he is miles ahead of other rappers:

\$6.6b - Kanye West
\$1.4b - Jay Z
\$1.0b - Diddy
\$820m - Dr Dre
\$230m - Eminem
\$200m - Master P
\$180m - Drake
\$160m - Ice Cube
\$150m - Pharrell
\$150m - Snoop Dogg

Hip Hop All Day @HipHopAllDay · Mar 18

Couple of sources used. It's very hard to get a clear number on this as celebrities don't just let everyone know, I just took the most common numbers and roughly estimated it. Also I typo'd with Diddy he seems closer to 900m

Misbar's investigation shows that Kanye West's report is the richest Black person in America is false.

While Yeezy, West's sneaker and apparel business partnership with Adidas AG and Gap Inc., is valued at \$3.2 billion to \$4.7 billion, it is all based on projected revenue and futuristic valuation of the business deal.

Optimism behind the likely sales overtime is also directly influenced by Yeezy's Adidas sneakers' sales performance, which remained resilient through the pandemic.

According to the document sighted by Bloomberg, Kanye West has a total revenue of \$191 million in royalties.

According to [Forbes](#), it is not true that Kanye West is worth as much as \$6.6 billion as it estimates his worth to be less than a third of that actually, a figure the publication puts at \$1.8 billion.

Forbes also states that in the UBS report cited by Bloomberg, the bank's assumptions project future earnings, especially the Yeezy Gap brand, which is yet to take off.

From its analysis in the article titled, [No, Kanye West Is Not The Richest Black Person In America—And Here's Why](#), the publication is quoted as saying that,

"Forbes' much more grounded number on that old-fashioned idea of current revenues—not theoretical future expectations. Yeezy Gap has brought in no revenue, let alone any profits. Who knows if the line will be popular? Maybe another hip-hop star will create the next trendy sneaker in a year or two, and Yeezys will be old news. The same thinking goes for Yeezy Supply, West's e-commerce platform. He has high hopes to turn it into a fashion destination—as of now. It just shills his shoes."

The publication had pegged his net worth last May at \$1.3 billion, and as such, even the current capital is a massive leap from last year's.

It further maintains that America's businessman, investor, and philanthropist Robert F. Smith remains the richest black man in the U.S. and is worth \$6 billion. In contrast, Nigeria's businessman, Alhaji Aliko Dangote, maintains his position as the richest Black person in the world with an estimated worth of \$6 billion.

Kanye is said to [have](#) a total of \$122m (£87m) in cash and stock, \$110m (£79m) from his extensive music catalog, which spans the last 20 years, as well as \$1.7bn (£1.2bn) in other assets.

Five years ago, Kanye West declared that he was broke and in \$53m debt but had made a seeming comeback last year April when he declared himself a billionaire and said his net worth had soared to \$3bn (£2.1bn). Forbes had countered the claim saying his value was a lot lesser than that.

He had fired back at the publication, saying, 'It's not a billion. It's \$3.3 billion since no one at Forbes knows how to count.'

This latest drama around his actual worth is coming on the heels of his divorce case with his now-estranged wife, Kim Kardashian.

Kanye West's reported \$6.6 billion worth of project possible earnings, which have not accrued to him yet. The report is therefore considered fake.
